STATE HAVA FUNDS REPORTING

ANALYSIS AND DESCRIPTION OF ACTIVITIES

Title 1, Section 101 HAVA funds

To conform to the 2003 State Plan Illinois has provided funds to the election authorities to better the voting process for voters with disabilities. This grant allowed the election authorities to provide sensitivity training to the judges of election, to make the polling place more accessible for voters with disabilities, i.e., better signage, parking, door handles, ramps.

Funds have been used for voter education in the way of more equipment to train election judges, grants to the election jurisdictions for training judges as well as voters, and voting information requirements. We prepared public service announcements to bring awareness to registering to vote as well as the importance of voting.

Funds were used to further HAVA compliance with the statewide voter registration database. This work continues to ensure a full compliant system. Funds have been used to assist the Secretary of State's office to coordinate their database with the statewide database. A waiver was requested for an extension until January 1, 2006 for completion of the database.

Funds from Section 101 have also been used to assist jurisdictions in purchasing equipment to replace the punch card equipment or to supplement their current optical scan equipment which makes election day activities run more smoothly.

A minimal amount was spent on actually preparing the state plan. Most of the costs were for the public hearings held to take comments.

Funds are used to establish and maintain a toll free access system (telephone) for provisional voters, military and overseas voting, election related complaints or general election related questions.

ILLINOIS STATE BOARD OF ELECTIONS
